# TOWN WALL YARD

## INFORMATION

### FOR EXHIBITION MANAGERS

---

00scale

The layout is 7'-6" long by 1'-10" wide (Max). It requires one 230V electric supply which also provides for light units. Operator access requires a 3'-0" minimum space to the rear of the layout.

From arriving at the location in the exhibition venue it only takes 10 minutes to set up or pack away.

It will be transported in one car with owner and assistant.

Usual operation is with sound equipped diesel locos (normally only one at a time and slightly muted).

Distances acceptable to travel will be discussed upon each invitation, and expenses agreed.
